

K-Love Radio is a very important resource for me as resident in my community. Not only does it keep me informed of Christian events in and around the Chicagoland area it also provides a much needed source of spiritual guidance and comfort. Their full time pastors receive calls 24/7. The Scripture refereces and positive encouraging on air conversation, praise and worship music keeps my heart and mind in the right direction. This is making me a less selfish and more patient and productive person. Taking it off the air I believe would remove a valuable resourse for my community. Currently K-Love provides a Godly example for all who choose to listen, our children most especially. There is more than enough negitive, vulgar, sexually explicit programming on the raido. Our children need to know an alternitive exists and they need access to it. Thank you for your time.
